Hello Sarah,

It's been nearly 5 years since we started using your services and whilst reflecting on the ups and downs of business life I thought I'd drop you a quick note to share with you how Your Office & PA has played an important part in our success...

How do you run a small business on a shoestring? That was our issue, and 5 years after starting the business, it still is. We don't have a formal office, but our customers and potential customers don't actually know that they are talking to someone at *Your Office and PA* whenever they ring our number. They just believe they are talking to a thoroughly professional member of our team, which in effect they are! YOPA act as the invisible glue that holds the company together, letting us get on with travelling the country doing our thing. We are all so delighted by their service that we have never, not for a second, considered looking around for an alternative.

Thanks,

Paul Baron
